

Attune Systems to Showcase File Virtualization Solution at IDC IT Forum and Expo

Santa Clara, Calif. – May 25, 2007 – Attune Systems, Inc., a provider of enterprise-class file virtualization solutions, will showcase and demonstrate the Maestro File Manager™, an important element of File Area Networks (FAN), at the IDC IT Forum and Expo in the Westin Waterfront Hotel, Boston, Mass., June 7-8.

Attendees are invited to view demonstrations of Attune solutions providing non-disruptive data migration, server retirement, data consolidation, tiering, and global namespace across heterogeneous Windows-based file servers and NAS devices.

About IDC Conferences

IDC is the premier global market intelligence and advisory firm in the information technology and telecommunications industries. IDC Forums are designed to provide the latest news, research, and benchmarking case studies on relevant and highly-focused topics, offering enterprise decision makers insight into how they can strategically use technology to gain competitive advantage. IDC is a subsidiary of IDG, the world's leading technology media, research, and events company. Additional information can be found at www.idc.com.

About Attune Systems

Attune Systems solutions reduce file management complexity for enterprise, government, and education storage environments while slashing operating costs and increasing scalability. The company's flagship product, the Maestro File Manager, is a file virtualization appliance that helps IT administrators discover, analyze, manage, and optimize their existing, heterogeneous file storage resources without impacting end users. File virtualization is the low-risk, high-impact first step towards implementing an effective File Area Network (FAN). Attune's investors include Alloy Ventures, GF Private Equity Group, LLC, QTV Capital, Rock Creek Capital, RWI Ventures, Shea Ventures, and Shoreline Venture Management. For more information, please call 877-GO-ATTUNE (877-462-8886) or visit the company's website at www.attunesystems.com.
