

## **Attune Systems Selected by Transportation Company**

### **Oceanair Inc. Deploys File Virtualization Solution from Attune**

Santa Clara, Calif. – September 18, 2007 – Attune Systems, Inc., a provider of enterprise-class file virtualization solutions, today announced that Oceanair Inc, a New England leader in international transportation logistics, has chosen the Maestro File Manager™ file virtualization solution. This new customer announcement follows numerous other client success stories made public by Attune in the past months.

“We are excited to support the unique storage needs of one of New England’s largest independent freight companies,” said Daniel Liddle, Attune’s vice president of marketing. “It shows once more the heightening customer demand in our file virtualization solution. Attune continues to be chosen by additional vertical markets, which face significant increases in their unstructured data and need a way to understand, optimize, and better manage their existing resources.”

Oceanair Inc. is an expert in international logistics, protecting customers from the tremendous amount of liability they are facing in this complex world as exporters and importers. Moving freight and being compliant with U.S. regulations are Oceanair’s top priorities. The company employs several licensed customs brokers, as well as certified Dangerous Goods personnel and Import and Export compliance specialists. A special accounts desk handles shipment needs, coordinating with airlines and steamship lines, and creating visibility throughout the supply chain.

### **About Attune Systems**

Attune Systems solutions reduce file management complexity for enterprise, government, and education storage environments while slashing operating costs and increasing scalability. The company’s flagship product, the Maestro File Manager, is a file virtualization appliance that helps IT administrators discover, analyze, manage, and optimize their existing, heterogeneous file storage resources without impacting end users. File virtualization is the low-risk, high-impact first step towards implementing an effective File Area Network (FAN). Attune’s investors include Alloy Ventures, GF Private Equity Group, LLC, Quicksilver Ventures, Rock Creek Capital, RWI Ventures, Shea Ventures, and Shoreline Venture Management.
