

Attune Systems CEO Selected to Present on File Virtualization at Pacific Crest Technology Summit

Santa Clara, Calif. – February 26, 2007 – Attune Systems, Inc., a provider of enterprise-class file virtualization solutions, today announced that it has been selected as one of the companies featured at the Data Center 3.0 Conference of the Pacific Crest Emerging Technology Summit. Alan Kessler, the company's chief executive officer, will be discussing the benefits of file virtualization on February 29, 11 a.m. PST, at the Fairmont Hotel in San Francisco, Calif.

The Attune session will cover virtualization trends and discuss the business challenges to effectively manage disaster recovery, data migration and consolidation, while talking about the latest capabilities such as tiered backup, tiered storage with de-duplication and forensic search. Kessler will explain how Attune's leading-edge file virtualization technology provides a backdrop for a cost-effective way to optimize unstructured data environments. He will also include real-world customer case studies, showing the benefits of file virtualization in a customer environment.

The Data Center 3.0 Conference will explore emerging technologies that are enabling IT transformation, including virtualization, automation, advanced storage/computer/memory appliance, green IT, and grid clustering, as well as Web 2.0 infrastructure automation. As the only security firm dedicated solely to technology, Pacific Crest is one of the primary information sources for major technology investors.

About Attune Systems

Attune Systems solutions reduce file management complexity for enterprise, government, and education storage environments while slashing operating costs and increasing scalability. The company's flagship product, the Maestro File Manager, is a file virtualization appliance that helps IT administrators discover, analyze, manage, and optimize their existing, heterogeneous file storage resources without impacting end users. File virtualization is the low-risk, high-impact first step towards implementing an effective File Area Network (FAN). Attune's investors include Alloy Ventures, GF Private Equity Group, LLC, Quicksilver Ventures, Rock Creek Capital, RWI Ventures, Shea Ventures, and Shoreline Venture Management.
